## § 404.1056

- (1) Domestic service in the private home of the employer; or
- (2) Agricultural labor.

[55 FR 7310, Mar. 1, 1990]

### § 404.1055 Payments for agricultural labor.

(a) *When cash payments are not wages.* We do not include as wages your cash payments in a calendar year after 1987 from an employer for agricultural labor (see § 404.1056) if your employer's total expenditures for agricultural labor are less than \$2500 in that year and your employer paid you less than \$150 cash remuneration in that year for your agricultural labor.

(b) *Exclusions for noncash payments and payments for seasonal agricultural labor.* (1) Noncash payments for agricultural labor are not wages.

(2) Your cash payments in a calendar year from an employer for agricultural labor are not wages, irrespective of your employer's total annual expenditures for agricultural labor, if you are a hand harvest laborer (*i.e.*, seasonal agricultural labor), and—

(i) Your employer paid you less than \$150 in that year;

(ii) You are paid on a piece rate basis in an operation which has been, and is customarily and generally recognized in the region of employment as paying on a piece rate basis;

(iii) You commute daily from your permanent residence to the farm on which you are so employed; and,

(iv) You were employed in agriculture less than 13 weeks during the previous calendar year.

*Example:* In 1988, A (not a hand harvest laborer) performs agricultural labor for X for cash pay of \$144 in the year. X's total agricultural labor expenditures for 1988 are \$2,450. Neither the \$150 cash-pay test nor the \$2,500 expenditures test is met. Therefore, X's payments to A are not wages.

(c) *When cash-pay is creditable as wages.* (1) If you receive cash pay from an employer for services which are agricultural labor and for services which are not agricultural labor, we count only the amounts paid for agricultural labor in determining whether cash payments equal or exceed \$150. If the amounts paid are less than \$150, we count only those amounts paid for ag-

ricultural labor in determining if the \$2500 expenditure test is met.

*Example:* Employer X operates a store and also operates a farm. Employee A, who regularly works in the store, works on X's farm when additional help is required for the farm activities. In calendar year 1988, X pays A \$140 cash for agricultural labor performed in that year, and \$2,260 for work in connection with the operation of the store. Additionally, X's total expenditures for agricultural labor in 1988 were \$2,010. Since the cash payments by X to A in the calendar year 1988 for agricultural labor are less than \$150, and total agricultural labor expenditures were under \$2,500, the \$140 paid by X to A for agricultural labor is not wages. The \$2,260 paid for work in the store is wages.

(2) The amount of cash pay for agricultural labor that is creditable to an individual is based on cash paid in a calendar year rather than on amounts earned during a calendar year.

(3) If you receive cash pay for agricultural labor in any one calendar year from more than one employer, we apply the \$150 cash-pay test and \$2,500 total expenditures test to each employer.

(d) *Application of the \$150 cash-pay and 20-day tests prior to 1988.* (1) For the time period prior to 1988, we apply either the \$150 a year cash-pay test or the 20-day test. Cash payments are wages if you receive \$150 or more from an employer for agricultural labor or under the 20-day test if you perform agricultural labor for which cash pay is computed on a time basis on 20 or more days during a calendar year. For purposes of the 20-day test, the amount of the cash pay is immaterial, and it is immaterial whether you also receive payments other than cash or payments that are not computed on a time basis. If cash paid to you for agricultural labor is computed on a time basis, the payments are not wages unless they are paid in a calendar year in which either the 20-day test or the \$150 cash-pay test is met.

(2) [Reserved]

### § 404.1056 Explanation of agricultural labor.

(a) *What is agricultural labor.* (1) If you work on a farm as an employee of

any person, you are doing agricultural labor if your work has to do with—

- (i) Cultivating the soil;
- (ii) Raising, shearing, feeding, caring for, training or managing livestock, bees, poultry, fur-bearing animals or wildlife; or
- (iii) Raising or harvesting any other agricultural or horticultural commodity.

(2) If you work on a farm as an employee of any person in connection with the production or harvesting of maple sap, the raising or harvesting of mushrooms, or the hatching of poultry, you are doing agricultural labor. If you work in the processing of maple sap into maple syrup or maple sugar you are not doing agricultural labor even though you work on a farm. Work in a mushroom cave or poultry hatchery is agricultural labor only if the cave or hatchery is operated as part of a farm.

(3) If you work as an employee of the owner, tenant, or other operator of a farm, you are doing agricultural labor if most of your work is done on a farm and is involved with—

- (i) The operation, management, conservation, improvement, or maintenance of the farm or its tools or equipment (this may include work by carpenters, painters, mechanics, farm supervisors, irrigation engineers, bookkeepers, and other skilled or semi-skilled workers); or
- (ii) Salvaging timber or clearing the land of brush and other debris left by a hurricane.

(4) You are doing agricultural labor no matter for whom or where you work, if your work involves—

- (i) Cotton ginning;
- (ii) Operating or maintaining ditches, canals, reservoirs, or waterways, if they are used only for supplying and storing water for farm purposes and are not owned or operated for profit; or
- (iii) Producing or harvesting crude gum (oleoresin) from living trees or processing the crude gum into gum spirits of turpentine and gum resin (if the processing is done by the original producer).

(5) Your work as an employee in the handling, planting, drying, packing, packaging, processing, freezing, grading, storing, or delivering to storage, to a market or to a carrier for trans-

portation to market, of any agricultural or horticultural commodity is agricultural labor if—

- (i) You work for a farm operator or a group of farm operators (other than a cooperative organization);
- (ii) Your work involves the commodity in its raw or unmanufactured state; and
- (iii) The operator produced most of the commodity you work with during the period for which you are paid, or if you work for a group of operators, all of the commodity you work with during the pay period is produced by that group.

(6) If you do nonbusiness work, it is agricultural labor if you do the work on a farm operated for a profit. A farm is not operated for profit if the employer primarily uses it as a residence or for personal or family recreation or pleasure. (See § 404.1058(a) for an explanation of nonbusiness work.)

(7) The term *farm operator* means an owner, tenant, or other person, in possession of and operating a farm.

(8) Work is not *agricultural labor* if it is done in the employ of a cooperative organization, which includes corporations, joint-stock companies, and associations treated as corporations under the Code. Any unincorporated group of operators is considered to be a cooperative organization if more than 20 operators are in the group at any time during the calendar year in which the work is done.

(9) Processing work which changes the commodity from its raw or natural state is not agricultural labor. An example of this is the extraction of juices from fruits or vegetables. However, work in the cutting and drying of fruits or vegetables does not change the commodity from its raw or natural state and can be agricultural labor.

(10) The term *commodity* means a single agricultural or horticultural product. For example, all apples are a commodity, while apples and oranges are two commodities.

(11) Work connected with the commercial canning or freezing of a commodity is not agricultural labor nor is work done after the delivery of the commodity to a terminal market for distribution for consumption.

(b) *What is a farm.* For purposes of social security coverage, *farm* includes a stock, dairy, poultry, fruit, fur-bearing animal, or truck farm, plantation, ranch, nursery, range or orchard. A farm also includes a greenhouse or other similar structure used mostly for raising agricultural or horticultural products. A greenhouse or other similar structure used mostly for other purposes such as display, storage, making wreaths and bouquets is not a farm.

**§ 404.1057 Domestic service in the employer's home.**

(a) *Payments for domestic service—(1) The applicable dollar threshold.* We do not include as wages cash payments that an employer makes to you in any calendar year for domestic service in the employer's private home if the cash pay in that calendar year is less than the applicable dollar threshold. The threshold per employer is \$1000 in calendar year 1995. In calendar years after 1995, this amount will be subject to adjustment in \$100 increments based on the formula in section 215(a)(1)(B)(i) of the Act to reflect changes in wages in the economy. Non-cash payments for domestic service are not counted as wages.

(2) *How evaluation is made.* We apply the applicable dollar threshold described in paragraph (a)(1) of this section based on when the payments are made to you rather than when the pay is earned. To count toward the applicable dollar threshold, payment must be made to you in cash (including checks or other forms of money). We apply the applicable dollar threshold only to services performed as a domestic employee. If an employer pays you for performing other work, the cash pay for the nondomestic work does not count toward the applicable dollar threshold domestic service pay required for the remuneration to count as wages.

(3) *More than one domestic employer.* The applicable dollar threshold as explained in paragraph (a)(1) of this section applies to each employer when you perform domestic services for more than one employer in a calendar year.

The wages paid by more than one employer for domestic services may not be combined to decide whether you have been paid the applicable dollar threshold or more in a calendar year. The standard applies to each employee when an employer has two or more domestic employees during a calendar year.

(4) *Rounding dollar amounts for reporting.* For social security purposes, an employer has an option in the way he or she reports cash wages paid for domestic service in his or her private home. The employer may report the actual wages paid or may round the wages to the nearest dollar. For purposes of rounding to the nearest dollar the cents are disregarded unless it amounts to one-half dollar or more, in which case it will be raised to \$1. If an employer uses this method to report a cash payment to you for domestic services in his or her private home in a calendar year, he or she must use the same method to report payments to other employees in that year for similar services.

(b) *What is domestic service.* Domestic service is work of a household nature done by you in or about a private home of the employer. A private home is a fixed place of residence of a person or family. A separate dwelling unit maintained by a person in an apartment house, hotel, or other similar establishment may be a private home. If a house is used primarily for supplying board or lodging to the public as a business enterprise, it is not a private home. In general, services of a household nature in or about a private home include services performed by cooks, waiters, butlers, housekeepers, governesses, maids, valets, baby sitters, janitors, laundresses, furnacemen, caretakers, handymen, gardeners, footmen, grooms, and chauffeurs of automobiles for family use. Pay for these services does not come under this provision unless the services are performed in or about a private home of the employer. Pay for services not of a household nature, such as services performed as a private secretary, tutor, or librarian,
